# **di the designo international®**

THE DESIGNO INTERNATIONAL has invested time in researching the best controls possible to work with-misting systems and integrate with the pumps.

Started in the year 1997, The designo international is engaged in manufacturing, exporting and supplying of HEATFLOW Outdoor heaters and COOL FLOW outdoor cooling system, MIST FLOW - Misting system, Misting paradise, Misting Pole etc, have been launched only after through research an overcoming developmental hurdles. Today we can proudly claim it to be the best product in the market. A brief history regarding our heaters and fans lies in: Our HEATFLOW outdoor heaters were developed in 1996 and marketed in 1997 our COOL FLOW mist fans were developed in 2004 and marketing started from 2005 MIST FLOW system in 2006, MISTING PARADISE and MISTING POLE in 2008, COOL FLOW Mist Tree & Mist Pole Developed in 2011. AC pre cooling system developed in 2011. COOLFLOW Mist flower developed in 2012. HEATFLOW electrical heater in 2011. COOLING CANNON - WORLD'S BIGGEST EVAPORATIVE COOLER in 2012. Misting features such as chandelier, spikes, misting ceiling & wall were designed & launched in 2014. In 2016 came GLASS HEATER, an exclusive creation sharing our skills and strengths of developing and delivering in INDIA & abroad. 2023 we came out with an eco friendly option for outdoor heating "FIRE PIT"

Water is the greatest prayer

# FEATURES OF MISTING SYSTEM

The flexibility of the controls and the system allows it to be used in every application for considerably less investment than “conventional” methods.

- Graphics Display showing misting timing.
- User friendly setup routine with the push buttons on the front panel.
- Continuous operation.
- Auto temperature control system.
- Misting Line in Stainless Steel / PE Pipe.
- Energy saving / Efficient System.
- Anti dripping system integrated in Control Panel.
- Weather Proof Fans (18"/24"/30") with SS Grill and SS Rod with Heavy Chrome Base.
- Cleaning Chemical (Specially formulated Chemical for Cleaning the Nozzles).
- Misting Fragrance (Specially formulated for Misting system).

## BENEFITS OF MISTING

Why bother with misting? Do you think it's just a lot of money going up in mist? Think again.

**Heat Reduction** – This is the most obvious benefit of misting. Some misting systems can cool the temperature up to as high as 25 degrees – much higher than conventional AC.

**Insect Repellent** – Flying insects can't escape droplets from a commercial insect spray. Imagine how they fare in a mist of fine droplets. Misting makes it impossible for flies, mosquitoes, and other flying insects to enter or leave certain areas.

**Cleaner Air** – Aside from flying insects, misting can also remove impurities in the air like dust and pollen. This is especially helpful for those with allergies.

**Flexible** – Conventional AC is good for certain indoor spaces, but what about outdoor spaces? You can set up a misting system in places where AC is impractical or even impossible like the patio or the porch, or even the garden or pool.

**Cheaper** – A misting system will also cost less in the long run. There is also no need to worry about a machine overheating or collecting dust.

**A Cool Idea** - Misting systems aren't just for the home. Restaurants use them to cool guests and so do sports stadiums. A misting system is also good for workplaces and warehouses. Farms now also use misting systems to cool down animals, to reduce stress, and raise productivity levels & above all enjoy outdoors.

**Save Energy using Evaporative Pre-cooling** - Evaporative pre-cooling using micro droplets is a proven and affordable method of enhancing the efficiency of air-cooled refrigeration and air-conditioning plants. Air-conditioning can account for 60% - 80% of a building's monthly power consumption. By artificially lowering the ambient temperature outside using our misting systems, immediate energy savings can be achieved. During this time of escalating energy costs, investing in energy saving technology is imperative.

- An extension of your living and entertaining space
- Stainless steel lines provide durability
- Customized to fit your home

## CUSTOMIZED CONTROL PANEL

- CUSTOMIZED CONTROL PANEL
- TIMER
- AMPERE METER & VOLT METER
- AUTO/ MANUAL OPERATION
- DRY RUN PROTECTION (OPTIONAL)
- AUTO CUT OFF
- OPERATING VOLTAGE : 220V / 50Hz
- HUMIDITY CONTROL SYSTEM (SETTING OF DESIRED HUMIDITY LEVEL OPTIONAL)
- ANTI DRIP FEATURE

## HIGH PRESSURE WALL MOUNT FAN

→ Stainless Steel fan grill

→ H.P. Nozzle

→ Misting Ring

→ Ball Valve

→ S.S. Tee

→ H.P. Pipe

## WHY the designo international

- We have exclusive workshop for repairs and experiments.
- We have the technical staff and the expertise for executing complicated projects.
- We have the privilege of claiming ourselves as World's largest range of misting products in house.
- We have with us senior consultants with experience of over 20 years in the line of Misting/Humidification.
- Customized solution to suit the working & type of the area.
- We also accept any challenge solving misting / outdoor cooling.
